Clinical Placement Project Partnership Agreement (Updated 1/09)

Partnership Agreement between the Colorado Center for Nursing Excellence and

Name of School of Nursing or Clinical Agency

Purpose:

The purpose of this agreement is to identify the affiliation and working relationship for the Clinical Placement Project Partners, their close cooperation and shared rights and responsibilities. This partnership is characterized by mutual participation, joint interest and mutual respect where all participants benefit from synergies of cooperation and the outcomes of success.

General Understanding

The Implementation Oversight Committee for the Clinical Placement Project has been organized to develop and implement an online clinical placement process that facilitates and expands capacity for clinical placement opportunities for schools of nursing within Colorado. The committee consists of representatives from Clinical and Education Partners that are considered the “partners” for this project. The partnership fosters discussions among schools and clinical agencies about clinical placement and practice, and maintains open lines of communication and goals consistent with the participant partners of the Implementation Oversight Committee and the convener of the partnership, the Colorado Center for Nursing Excellence.

The partners agree to the following:

1. Work together to maintain an environment of cooperation, collaboration and mutual respect as it pertains to the on going success of the online clinical placement system.
2. Abide by the shared rights and responsibilities of all partners as enumerated in the Operational Guidelines and the Website Terms of Use.
3. Partnership is voluntary. Partners may withdraw their partnership agreement at any time by notifying the Project Director at the Colorado Center for Nursing Excellence.
4. The partnership is intended solely for the mutual benefit of its partners. There is no intention, express or otherwise, to create rights or interests for any parties or persons outside this partnership.

By signing this partnership agreement both agencies agree to be active community partners and to abide by its terms. This Agreement is effective from the date signed or until withdrawn as noted in item three above. This agreement does not replace any current or future Clinical Affiliation Agreements between partner schools and clinical agencies.
